The graph shows the number of book authors, blog authors, Facebook authors, and Twitter authors from 1400 to 2013. The vertical axis represents the number of authors per year, ranging from 1 to 10,000,000,000. The horizontal axis represents time, ranging from 1400 to 2013.

- **Book authors** show a steady increase from 1400 to around 2000, after which the growth becomes slower.
- **Blog authors** start increasing significantly around 2005 and continue to rise rapidly.
- **Facebook authors** follow a similar trend to blog authors, starting to increase around 2005.
- **Twitter authors** have a much steeper increase, starting around 2006 and reaching a significant number by 2013.

The graph also indicates the growth of authors per year as a percentage of the 2009 world population, with the lines showing the percentage increase over time.
